

Welcome to WaltHarper.net

Welcome to the website for Walt Harper. This website is a personal website which includes my weblogs, newsfeeds from my favorite sources, my resume, many links, and coming soon a gallery of my many projects both complete and in progress. Please have a look around and let me know what you think. For inquiries, comments or suggestions please go to the Contact Me page.

Welcome to the website for Walt Harper. This website is a personal website which includes my weblogs, news from my favorite sources, my resume, many links, and coming soon a gallery of my many projects both complete and in progress. This site utilizes the Mambo Open Source Content Management System. If you've read anything at all about Content Management Systems (CMS), you'll probably know at least three things: CMS are the most exciting way to do business, CMS can be really, I mean really, complicated and lastly Portals are absolutely, outrageously, often unaffordably expensive.

Mambo is set to change all that ... Mambo is different from the normal models for portal software. For a start, it's not complicated. Mambo has been developed for the masses. It's licensed under the GNU/GPL license, easy to install and administer and reliable. Mambo doesn't even require the user or administrator of the system to know HTML to operate it once it's up and running. Please read through this site to see what you think. For inquiries, comments or suggestions please go to the Contact Me page to send them.
